

Call for Proposals

Feminist Praxis

FAC press is the micropublishing project of the Feminist Autonomous Centre for research. In 2022, FAC press launched the Feminist Praxis series. For this series, we invite proposals for original, unpublished manuscripts (in English, normally ≤ 50,000 words), on a rolling basis, whose themes and problematics converge with one or more of FAC's research areas (listed below) and ***synthesise theory with practice, poetry with theory, action with reflection.***

Research areas:

- * Sexualities and Genders: Queer and Transfeminist Perspectives;
- * Intersectionality, Abolition, and Transformative Justice;
- * Feminist No Borders Struggles;
- * Art as Research: Visual, Sonic, Documentary, and Performative Practices;
- * Space: Radical Perspectives on Urban Space and Design;
- * Bodies In Movements: Embodied Knowledges, Collective Care, and Healing Practices.
